ASC and our suppliers play a vital role in building and maintaining Australia’s frontline naval Defence capabilities.

This Supplier Code of Conduct sets out the standards that ASC expects of our suppliers.

These standards are an extension of ASC’s corporate values of service, safety, leadership, integrity, results and innovation which are the guiding principles that define how we conduct our business and what we stand for as a company.

Ensuring that our suppliers meet these standards is critical to maintaining strong and collaborative relationships with the Royal Australian Navy, the Department of Defence and other members of the naval enterprise. ASC will assess the suppliers’ adherence to the ASC Supplier Code of Conduct through supplier audits, pre-qualification, performance reviews, procurement activity and general information exchange. ASC may elect to not work with or cease to work with suppliers who do not meet these standards.
