COLLINS CLASS SUBMARINE IN SERVICE SUPPORT CONTRACT

Executive Summary

ASC is contracted to the Commonwealth of Australia under the Collins Class Submarine In Service Support Contract (ISSC) to undertake the sustainment and enhancement of the Collins Class Submarines (CCSM).

The ISSC is a long-term, performance-based contract that is intended to remain in place until the end of service of the CCSMs, currently envisaged as occurring in mid-2030.

ASC performs the critical role of CCSM supply chain manager under the ISSC. As part of this role, ASC establishes and manages subcontracts with a wide range of Australian companies that provide services and supplies to support the sustainment and enhancement of the CCSM. A sample of these Australian companies is shown in the table over leaf.

COMPANY DETAILS

ASC Pty Ltd | 694 Mersey Road North, Osborne, South Australia 5017 | 20 Nautical Drive, Henderson, Western Australia 6166
www.asc.com.au

Public Australian Industry Capability Plan

A sample of these Australian companies is shown below;

SUBCONTRACTOR NAME	SERVICE OR SUPPLY
Babcock Australia	Weapons System
Eptec Marine	Blast and Paint Services
Hi Fraser Group	High Pressure Valves and Refurbishment
MacTaggart Scott Australia	Towed Array Handling System and Emergency Propulsion Unit
Quality Maritime Surveyors (QMS)	Metal Loss Services
Sodexo Total Support Services	Facilities Management
Veem	Valves and Refurbishment

The primary locations for the delivery of these services and supplies are ASC's sites at Osborne in South Australia and Henderson in Western Australia.

Scope of Work Opportunities

There are upcoming opportunities for Australian companies to become an ASC subcontractor and support the sustainment and enhancement of the CCSM. The work packages that are expected to be released to the market during the 2018/2019 financial year (July to June) for competitive tender include but are not limited to:

WORK PACKAGE	EXPECTED TIMING
Scaffolding (SA)	First Quarter
Category Management – O Rings	Second Quarter
General Minor Upgrades to Existing Facilities	Multiple
Category Management – Production Consumables	Third Quarter
Lift Maintenance Services (WA)	Fourth Quarter

These work packages will be released by ASC as Requests for Information (RFI) and/or Requests for Proposal (RFP) directly to companies that have pre-registered with ASC and indirectly through the Industry Capability Network (www.icn.org.au). Subcontracts will be awarded based on evaluation criteria that include value for money, quality, delivery standards, flexibility and responsiveness to support ASC and the CCSM Program.

As with existing subcontracts, the primary locations for the delivery of these services and supplies are ASC's sites at Osborne and Henderson.

Future Opportunities and Industry Engagement

To register interest in future work as an ASC subcontractor on the CCSM program, companies should complete the Registration of Interest form in the Supply Chain section of the ASC website (www.asc.com.au). ASC will contact registered companies when relevant work packages are being released to the market.

ASC also participates in industry events which provide forums for Australian companies to engage with ASC. These include the Defence and Industry Conference, Pacific International Maritime Exposition and Defence Teaming Centre events.
